**LET'S BEGIN YOUR SEAMLESS ASSEMBLY JOURNEY**  
STEP BY STEP

**Unfolding The BathTub**  
Turn the bathtub backward as shown in figure (A), gently open both of the legs as shown in figure (B). Next flip it and ensure both legs are firmly standing.

**Opening The BathTub**

**Temperature Meter Setup**  
Insert the temperature meter inside the empty slot of soap bar by passing the wire through the slot as shown in figure (A), ensure the wire is kept intact, then press firmly to secure.

**Temperature Meter Placement Into Bathtub**  
Thread the wire through the slot in the bathtub, guiding it into the bathtub through the designated hole shown in figure (A).

**Bath Cushion Placement**  
Position the bath cushion inside the bathtub and secure it by adjusting the buckle, rotating it to match the width of the bathtub for a snug and secure fit, as shown in figure (A).

**FANTASTIC WORK !**  
YOUR BATHTUB IS FULLY ASSEMBLED AND READY FOR A SPLASHIN' GOOD TIME!
